

Adjustable Hand Therapy Table / Model 1020
Acute Care Tables

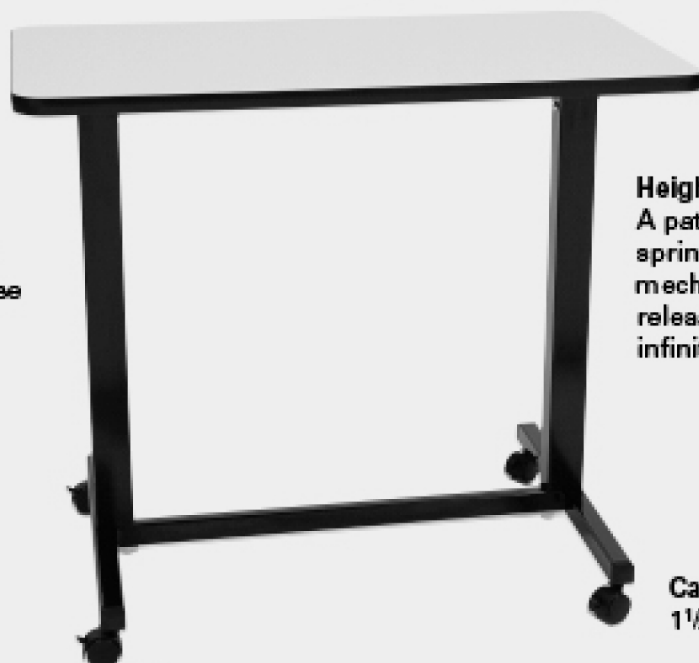

Model 1020

Top

High Pressure "Fashion Gray" top with black T-mold edging. 18"W x 32"L.

Frame

Black powder coated epoxy, welded "H" base and columns.

Height

A patented automatic spring-assisted lift mechanism with dual hand release controls. Adjusts infinitely between 28"-45".

Casters

1½" locking casters.

Base

Welded H-base and dual columns.

This Heavy-Duty dual column table will easily hold up to a 100 lbs. Clinicians can treat or evaluate patients at any number of comfortable positions from sitting to standing. The Adjustable Hand Therapy Table has a patented automatic spring-assisted lift mechanism with dual hand release controls that allow for infinite adjustment throughout the 28" to 45" height range.

The Adjustable Hand Therapy Table features black, powder coated epoxy columns with a welded "H" base. The 1½" locking casters allow for easy maneuvering over carpet, tile, linoleum and thresholds. The casters are mounted at the extreme points on the legs for maximum stability.

The Adjustable Hand Therapy Table also features an 18" x 32" high pressure "Fashion Gray" top with black T-Mold edging. The large top provides the perfect space for a variety of treatments, manipulations and clinical assessments.

With its smart look, easy height adjustment, and large stable work surface, the Adjustable Hand Therapy Table is the perfect compliment to any Rehab Center or Specialty Clinic.
